Online Education

1. Does all programs/courses were completed on time.	Yes
--	-----

2. Measures taken to complete the syllabus of courses and programs.		<p>Planning and Scheduling Classes - One of the important parts of completing the syllabi is scheduling and meticulously planning the topics. Sangam University boasts smart classrooms that are well-equipped and have the necessary IT support and multimedia capabilities. Extra classes, remedial classes, and expert lectures by renowned professors from in-house and outside specialists are organized in every department of the university in order to finish the syllabus of various courses or programmes. Students are also urged to sign up for MOOCs and NPTELs using the Swayam online portal. Teachers typically distribute study materials, sets of questions, home assignments, and ERP to the appropriate groups in order to help them prepare for exams. Encouraging students to respond to questions posed by their peers as well as to raise questions of their own about the subject. An offline and online discussion forum has been created for that purpose. Sangam University has taken steps to hold online lessons during the pandemic in order to cover the complete streams coursework. As part of this, the professors are delivering classes online in accordance with a schedule created by the departments under the presidents direction. Open Learning spaces with technology are available on campus to help students participate in interactive classes and group projects. Through the e-library, the students have access to the enormous library materials. For the purpose of assisting students in finishing their assignments and projects, all e-resources are available on campus. The universities cutting-edge computer labs are outfitted with the most recent software, which encourages students to use a lot of online resources to do their coursework. The universities digital platforms provide personalized learning tools that teachers can adapt to keep students engaged. The use of adaptive learning technology aids instructors in evaluating students knowledge and, where appropriate, customizing the course material to enhance the learning process. The pupils have the chance to work independently and hone their critical thinking skills. Throughout the course of the curriculum, many departments assign various tasks to the appropriate batches. These include PowerPoint presentations, conversations, arguments, and fieldwork. These assist in assessing both their level of readiness and their ability to successfully complete each prescribed curriculum.</p> <p>Our faculties in the relevant departments follow this diligently, and frequently they incorporate it into continuous evaluation. Trans disciplinary Skills - Completing the curriculum means more than just being exam-ready; it also means that the students or research scholars have in-depth knowledge. For this reason, we establish multiple checkpoints as benchmarks for successful completion by assigning various tasks that also test students trans disciplinary skills, such as critical thinking, research, crisis management, communication, and social responsibility. Attendance is extremely important because without the participation of the students, our aim will not be achieved. As a result, the attendance percentage is tightly enforced. This is yet another critical step in finishing the syllabus.</p>	
3. The period of delay in completion of syllabus (in months).		0	
4. The period of delay in conducting exams (in months).		0
